MEDICAL DEPARTMENT.

No. 31.—In supersession of the rules contained in Army Department Notification No. 25, dated the 7th January 1910, the following regulations for the grant of study leave to officers of the Indian Medical Service are published for information :—

REGULATIONS REGARDING THE GRANT OF STUDY LEAVE TO OFFICERS OF THE INDIAN MEDICAL SERVICE.

1. Extra furlough for the purpose of study may be granted to officers of the Indian Medical Service on the recommendation of the Director-General, Indian Medical Service.

2. The period of such Study Leave will be calculated in the case of an officer under Military Leave Rules at the rate of one month for each year of pensionable service, and in the case of an officer under Civil Leave Rules at the rate of one month for each year of active service, as defined in the Civil Service Regulations, up to a total in either case of 12 months in all during an officer's service.

3. Study Leave may be taken at any time, but will not be granted more than twice in the course of an officer's service. This restriction does not apply to an officer who has part of his furlough converted into Study Leave under Rule 8.

4. The minimum period of study which will render an officer eligible for Study Leave shall be two months.

5. The minimum period of leave granted solely as Study Leave shall be six months. Time spent on the journey to and from India by an officer whose Study Leave is not combined with any other kind of leave, will reckon as Study Leave, but the allowance specified in Rule 10 will be granted during the period of study only. An officer whose Study Leave is combined with any other kind of leave will, however, be required to take his period of Study Leave at such a time as to retain, at its conclusion, a balance of other previously sanctioned leave sufficient to cover his return journey to India.

When an officer has been granted a definite period of Study Leave and finds after arrival in England that his course of study will fall short of the sanctioned period to any considerable extent, his absence from India will be reduced by the excess period of Study Leave unless he produces the assent of the authorities in India to his taking it as ordinary furlough.

6. Study Leave can be combined with any other kind of leave, provided the period occupied in study is not less than two months and, in the case of leave on medical certificate, provided that the Medical Board at the India Office certifies that the officer is fit for study. In the case, however, of officers in military employment, Study Leave cannot be taken in continuation of the combined privilege leave and furlough admissible under the terms of India Army Order No. 54 of 1904, if the total period would thereby exceed eight months, but Study Leave may be so taken provided such leave is for not less than two months and the total period of combined privilege leave, furlough and Study Leave does not exceed eight months; this limitation to eight months does not, however, apply to the case of Study Leave combined with privilege leave alone. The total period of absence from duty in India, in the case of officers under the Leave Rules of 1858 for the Indian Army will be strictly limited to two years.

7. Except as provided in Rule 8, all applications for Study Leave shall be submitted, with the audit officer's certificate, to the Director-General, Indian Medical Service, through the prescribed channel, and the course or courses of study contemplated and any examination the candidate proposes to undergo shall be clearly specified therein.

8. Officers on furlough who wish to have part of their furlough converted into Study Leave should address the Under Secretary of State, India Office, and should furnish a statement showing how it is proposed to spend the Study Leave. Similarly officers on furlough or other leave who desire to have it extended for purposes of study should address the Under Secretary of State, but in addition to the statement of the proposed study they must support their applications with documentary evidence of their having obtained the approval of the authorities concerned in India to their applying for an extension of leave.

9. An officer who is at home on combined leave may be permitted to commence a course of study before the end of his privilege leave and to count the period so spent as part of his Study Leave, without forfeiting his privilege leave allowances during such period.

10. For the course of study, lodging allowance at the rate of 8*s.* a day for a field officer, 5*s.* for a Captain, and 4*s.* for a Lieutenant, will be granted on the production of the certificates required by rule 12. It is to be understood that in order to qualify for the grant of Study Leave or for the receipt of lodging allowance, a definite course of study at a recognised institution, which will occupy the time of the officer for five or six days a week, must be pursued. This allowance will not be admissible to an officer who retires from the service without returning to duty in India after a period of Study Leave. Lodging allowance will be admissible up to 14 days for any period of vacation.

11. The rate of pay admissible during Study Leave to an officer under Civil Rules is determined as follows:—

A. If the rate of pay admissible during furlough earned by service under Civil Rules is higher in his case than that admissible during furlough earned by service under Military Rules, then—

(1) He draws pay at the former rate for such period of his Study Leave as has been earned by his service under Civil Rules, and—

(2) for the remainder, if any, he can elect either—

(*a*) to draw pay at the rate admissible during furlough earned by service under Military Rules, or—

(*b*) to draw it at the rate admissible during furlough earned by service under Civil Rules for a period not exceeding the amount of such furlough at his credit. In this case an equal period of the furlough at his credit earned by service under Civil Rules will be treated as if it had been earned by service under Military Rules.

B. If the rate of pay admissible during furlough earned by service under Military Rules is higher in his case than that admissible in respect of service under Civil Rules, then—

(1) He draws pay at the former rate for such portion of his study leave as has been earned by his service under Military Rules, and—

(2) for the remainder, if any, he can elect either—

(*a*) to draw pay at the rate admissible during furlough earned by service under Civil Rules, or—

(*b*) to draw it at the rate admissible during furlough earned by service under Military Rules for a period not exceeding the amount of such furlough at his credit. In this case an equivalent period of the furlough at his credit earned by service under Military Rules will be treated as if it had been earned by service under Civil Rules.

12. On completion of a course of study a certificate on the proper form (which may be obtained from the India Office) together with any certificates of special study should be forwarded to the Under Secretary of State, India Office, who will arrange for the transmission of copies of the documents to the Director-General, Indian Medical Service. Officers may also be called upon to report themselves in person to the President of the Medical Board, India Office, on the conclusion of their course of study.

13. Study Leave will count as service for promotion and pension, but, except so far as it may be taken during privilege leave (*see* Rule 9), it will not count for furlough or any other leave. It will not affect any leave which may already be due to an officer; and will not be taken into account in reckoning the aggregate amount of furlough taken by an officer towards the maximum period of six years admissible under Article 289 of the Civil Service Regulations.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENTS.

Calcutta, the 18th January 1911.

No. 3.—The following is published for general information:—

No. 63—82 E.

Dated Calcutta, the 14th January 1911.

RESOLUTION.—The system of promotion in the executive and assistant classes for Royal Engineers serving in the Public Works Department (including the Railway Department) was revised by Public Works Department resolution No. 154—173 E., dated 11th February 1910. The old graded system of promotion was replaced as in the case of civil engineers by an incremental scale of pay with effect from the 8th March 1908, but the actual rates to be drawn under the incremental scale were fixed only for Royal Engineers already in the Department. These rates were arranged to correspond as nearly as possible with their expectations under the graded system of promotion. In paragraph 6 of the resolution it was stated that orders would be issued later in regard to the pay of future entrants. After careful consideration of the case in all its bearings it has been decided that there is no justification for offering Royal Engineers higher rates of pay than the enhanced rates sanctioned in 1908 for civil engineers of the Imperial service. The Governor General in Council, with the approval of His Majesty's Secretary of State for India, is accordingly pleased to rule that Royal Engineers, who enter the Department after the 11th February 1910, shall draw pay under the civil scale recapitulated below, and in accordance with the rules laid down in Public Works Department resolution No. 673—684 E., dated 24th April 1908, in so far as they apply to civil engineers of the Imperial service—

2. The method of calculating the rate of pay admissible to a Royal Engineer officer under the civil scale will be the same as that adopted in the resolution of the 11th February 1910, that is, the first year of service will be reckoned to commence two and-a-half years from date of first commission. Although more favourable on the whole, the rates of pay in the civil scale are lower in some instances than the emoluments drawn at a similar stage in the Military Works Services, and in order to protect Royal Engineer officers from initial loss on entering the Department, it has been decided, if their emoluments in military employ at date of transfer exceed the rate of pay admissible under the civil scale, to grant them the difference as a personal allowance until it is absorbed by future increments under the latter scale.

Ordered, that this resolution be forwarded to the local Governments and Administrations noted in the margin for information and guidance, and that it be published in the *Gazette of India* for general information.

The Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma, and Eastern Bengal and Assam, Public Works Department.
The Honourable the Chief Commissioner of the Central Provinces.
The Chief Commissioner of Coorg.
The Honourable the Resident at Hyderabad.
The Honourable the Agents to the Governor General for Central India, and Rajputana.
The Honourable the Agents to the Governor General and Chief Commissioners in Baluchistan and the North-West Frontier Province.

Ordered, also, that this resolution be communicated to the Home, Finance, Revenue and Agriculture, Railway and Army Departments of the Government of India, and to the Comptroller and Auditor General, for information.

N B—Should the number of candidates who have applied to be examined at any one of the above centres fall short of *thirty*, the candidates that selected that centre must be prepared to proceed, at their own expense, to the nearest centre where the examinations may be held. Timely notice will be given to the candidates concerned.

* Candidates coming up in Botany (special) should state in their applications whether they bring up this subject as one of the subjects required for the Diploma for Chemists and Druggists.

† The examinations in Book-keeping, Banking, Commercial Geography, Shorthand, and in Type-writing (Elementary and Intermediate grades) will be conducted according to the syllabuses revised up to 17th June 1909.

‡ The syllabus for "Commercial Correspondence," has been replaced by the syllabus for "Theory and Practice of Commerce."

§ Candidates coming up in Shorthand will be allowed to transcribe their shorthand notes with a type-writer. They must bring with them their own type-writers for this purpose.

‖ Candidates coming up in Type-writing must bring with them their own type-writers—the Remington, Yost, New Century, Smith Premier, Densmore Empire, Underwood, Oliver, Armstrong or L. C. Smith & Bros machine. The candidates will be examined in *further*, but at least every *two* candidates for the *Elementary* grade, at least every *four* candidates for the *Intermediate* grade and at least every *three* candidates for the *Advanced* grade must have one machine among them.

3. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the place of examination entered in his application, which must invariably be the place where he is employed or ordinarily resides, or should it not be a centre, the place nearest to it where the examination is held. A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination annulled.

4. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examination in any of the subjects mentioned at any other place, if he is satisfied that not fewer than *thirty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 20th January. Ordinarily, however, only one place will be constituted a centre for each district.

5. The oral and practical examinations in such subjects as require them will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

N.B.—*To guard against disappointment in the case of such of the Oral and Practical examinations as may be held before the Written examination candidates are recommended to refer to Part I-B of the* Fort St. George Gazette *from time to time.*

6. Candidates whose examinations, either written or oral and practical, cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear.

7. Heads of institutions are requested to see, before the certificate at the foot of the application is signed by them, that their institution has been recognised by the Director of Public Instruction, Madras, as fitted to impart instruction in the *Technical* subjects and for the grades in them brought up by their *pupils*.

N.B.—Heads of institutions recognised for *General Education only* should not sign the certificate at the foot of the application form filled in by any of their pupils coming up for any of the Technical examinations.

8. All pupils coming up from the same institution must select the same centre, and the applications of all of them should be forwarded together (along with a covering letter stating the number of applications) by the head of that institution, no applications of any *private* candidates being enclosed with these applications.

9. Each candidate must, wherever the syllabus requires it, submit, *before the 31st January*, the necessary drawings, plans, surveys, field books, estimates, or other "certified works". Each of the drawings, etc., submitted must have entered on it the name of the candidate, the subject and grade of examination for which he appears and the centre at which he appears, and must be certified to be his own unaided work by the head of the institution or office to which he belongs, by an officer of the Public Works Department not below the rank of Supervisor, by a District Board Engineer, by the Engineer of the Corporation of Madras, or by an Engineer of any Railway Company.

Candidates are specially warned that no certified works will be valued by examiners unless the certificate of authorship is in each case quite satisfactory, and specifies clearly the period of time occupied in the execution of each work and unless the examiners are satisfied as to the identity and qualifications of the persons granting the certificates. Further, if any suspicion attaches to any certified works submitted by pupils from Technical Schools, the Commissioner will be compelled to recommend to the Director of Public Instruction the withdrawal of the departmental privileges enjoyed by the schools. Private candidates, whose certified works are in any way suspected by the examiners, will be liable to have their examination invalidated and also to be debarred from appearing for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit.

It must be particularly noted that the drawings, etc., of each candidate should be submitted in a separate roll for each subject and for each grade (*i.e.*, the drawings, etc., for a number of subjects should not be rolled up together), and that the drawings, etc., of a number of candidates should not be sent in one and the same roll. *Also, on the outside of each roll for each subject, each candidate should enter the following particulars in ink*:—

(1) Name of candidate,
(2) Place of examination,
(3) Subject,
(4) Grade, and
(5) Total number of drawings in each roll.

As the application has to be kept in the office and as the drawings, etc., have to be forwarded to the examiners, the application itself should be sent in a *separate* cover and *not rolled up* with the drawings, etc.

A candidate who failed, or having applied, did not appear, at a previous examination, must submit fresh drawings, etc. The drawings, etc., submitted will on no account be returned.

10. Candidates must send in their applications made out in English on *printed forms so that they reach the Commissioner's Office on or before the 31st January, after which date no applications will be received.* Only one form of application should be used by each candidate, although he may bring up several subjects and come up for different grades.

11. Candidates in the mufassal should obtain the required application forms from the Treasury of the taluk in which they are resident or of the district to which they belong. Candidates who are residents

of Madras should apply for application forms at the Office of the Commissioner for Government Examinations, Old College, Nungambakkam, and not to the Collector of Madras.

N.B.—No notice will be taken of any application from candidates in the mofussil requesting to be supplied with application forms from this office.

12. The following is the scale of fees to be paid by candidates for admission to the examinations:—

	Elementary	Intermediate	Advanced
	Rs.	Rs.	Rs.
For each subject ..	3	5	10

N.B.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

13. The prescribed fee must be paid in every case into a Government Treasury, *i.e.*, if at Madras, into the Bank of Madras, and the receipt given by the Treasury Officer or the Bank of Madras attached to the application, which must in every case reach the Commissioner's Office on or before the 31st January. *On no account will the fee be received at the Commissioner's Office, whether sent in cash or by Post Office orders. No application will be registered unless it reaches the Commissioner's Office by the date prescribed.*

NOTE.—*At Madras, in the case of all pupils, the fees should be collected by the Headmaster and sent in a lump sum to the Bank of Madras together with two lists of the pupils, one of which will be retained by the Bank and the other signed and returned to the Headmaster. This latter list should be forwarded to this office along with the applications of the candidates. The necessary forms for this purpose will be supplied by this office to Headmasters on application.*

14. Each application should be sent direct to the undersigned, post paid, superscribed and addressed as follows, the receipt for the fee paid being correctly entered in it.

☞ Candidates are warned that the application itself *should not be enclosed* with any drawings, plans, surveys, field books, estimates, or other "certified works" that may be sent, but should be submitted in a *separate* cover.

[*Application for admission to the Government Technical Examinations.*]

To

The Secretary to the Commissioner
for Government Examinations,
Nungambakkam,
Madras, S.W.

N.B.—Candidates anxious to assure themselves that their applications have been received should enclose *an addressed post card in their respective applications*. The post card should bear the sender's address only, and no other writing. Such post cards will be returned to them in due course with the "Received" stamp of the office impressed upon them. No other form of acknowledgment except that required by the postal rules regarding registered covers can possibly be given, nor will any notice be taken of any letter from any candidate inquiring whether his application has been received. *Insufficiently stamped covers will be rejected.*

15. Candidates should write their names, their father's names, and their house names *distinctly* and in *full* in their applications and give their *addresses in full* also; if "Other Hindus", they should state in column 3 of their applications whether they are "Non-Brahman Caste Hindus", or "Panchamas". Applications defective in any particular will be returned.

NOTE.—*The occupation or profession of candidates, or the appointments held by them should invariably be stated—in full—in column 10 of their applications.*

16. *The fee paid will, in no case whatsoever, be refunded, nor will it be reserved for a subsequent examination. Neither will any excess fee that may have been inadvertently paid be returned. Candidates are warned to study the notification carefully and satisfy themselves, before remitting their fees, that they fulfil the prescribed conditions of admission to the examination and that they can, if necessary, proceed, at their own expense, beyond the limits of the examination centre selected by them, for the purpose of undergoing the written, or the oral and practical examinations.*

17. Candidates for the Intermediate or Advanced examinations whose names have already been published in the Gazette as having passed a particular stage or stages in subjects in which the examination is divided into stages, or as having passed the Intermediate (late Preliminary), where the examination is of two grades—Intermediate and Advanced—must in their applications cite the date and page of the Gazette in which their names appear and their number in the list of successful candidates.

18. Subject to any change that it may be necessary or convenient to make in the arrangements, the Written examination will be conducted in the order of time and subjects shown in the following table, beginning each day at 10 o'clock in the forenoon and 2 o'clock in the afternoon except in the case of Type writing for which the arrangement is different as shown in the time-table. *Candidates will not be allowed to come up in more than one of the subjects bracketed together for the same time on the same day, or for more than one grade of examination in the same subject in the same year.*

SALT, ABKÁRI AND CUSTOMS DEPARTMENT.

NOTIFICATION.

No. 4, dated 24th January 1911.

NOTICE OF SALE OF ABKARI AND OPIUM PRIVILEGES.

Notice is hereby given that the number of independent shops appointed for the sale of liquor, opium and intoxicating drugs during the twelve months beginning 1st April 1911 and ending 31st March 1912 and the local limits appointed for them will be notified by Collectors in their District Gazettes and that the privilege of sale thereof will be put up to public auction on the dates, at the places and by the officers to be notified by Collectors subject to the conditions hereinafter set forth.

Conditions of Auction Sale.

II. The districts in which independent arrack shops, foreign liquor taverns, beer shops, ganja shops and opium shops, respectively, will be sold are specified below :—

Independent arrack shops.	Foreign liquor taverns	Beer shops.	Ganja shops.	Opium shops
1	2	9	4	5

From 1st April 1911.

Throughout the excise tracts of the Presidency including the Bangarapalle State	In all districts except Ganjam, Trichinopoly, Ramnad and the Nilgiris	In the districts of Anantapur, Bellary, North Arcot, Tanjore, Trichinopoly, Madura, Coimbatore and Salem	Throughout the Presidency.	Throughout the Presidency

Arrack and ganja wholesale depot licenses will be issued for all districts. Particulars regarding them will be found in clause XVI below. A separate notification will be issued regarding fixed fee foreign liquor licenses.

III. A deposit must be made by each bidder previous to bidding and will be required by the selling officer on the day of sale. A deposit of Rs. 50 will ordinarily be required from any person wishing to bid for any important shop or any large number of shops. This will be reduced to Rs. 20 in the case of bidders for not more than two or three shops of an aggregate monthly value of Rs. 50 or less and to Rs. 5 in the case of bidders for single small shops. In the Kurnool district, the officer conducting the sale may, where he finds it necessary, require a deposit of Rs. 10 only from bidders for arrack shops. In the South Canara district, the selling officers may at their discretion reduce the deposit to Rs. 2 for shops whose average monthly rental does not exceed Rs. 2.

IV. The shops will be put up to auction in the order in which they are notified, unless the selling officer sees reason to change that order. Upset prices will be fixed at the discretion of the Collectors. The reserve price placed by Government on the shops will not be published, but the average of the previous five years' rentals will be notified by the Collectors, wherever possible, for the information of bidders.

V. No person will be allowed to bid for another unless he holds a power-of-attorney from him.

VI The officer conducting the sale may, at his discretion, refuse to accept the bid of any person on the ground that he has been convicted by a Criminal Court or has previously been guilty of such a breach of the conditions of a license or of a contract under the Abkári / Opium Act, as to render him undesirable as a holder of a license or on the ground that he is insolvent or to prevent arrangements to the detriment of Government interests or for any other valid reason He may also refuse any bid which he may consider to be purely speculative, after recording his reasons for doing so. Village officers will not be allowed to bid for, or to have any direct interest in shops for the sale of intoxicants

VII. The shops will be knocked down to the highest bidder, but the sale will be subject to formal confirmation of the Collector, who shall be at liberty to accept or reject any bid at his discretion Such formal confirmation will be tantamount to an acceptance of the bid, unless revised by the Board of Revenue for special reasons, and will be necessary whether the sale be held by the Collector himself or by any officer appointed by him.

VIII. In case of dispute the selling officer's decision shall be final If for any reason the highest bid is rejected, the next highest shall be taken or the shop re-sold at his discretion.

IX. At the close of each day's sale, the deposits made by the unsuccessful bidders will be returned to them. As the auction proceeds, each person whose bid is accepted shall at once, if so required by the selling officer, or otherwise at the close of the day's sale, make a further deposit* of half a month's rent (in addition to the deposit made under clause III) for each shop unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit made by him under clause III will be forfeited and the shop will be put up again immediately by the selling officer on the above conditions or otherwise disposed of by the Collector and the defaulter will be debarred from bidding again for the same or for any other shop.

X Persons to whom shops have been knocked down and who have made deposits as provided in clauses III and IX shall also deposit * such further sum as with the former deposits will make up two months' rent (to be paid within ten days from the date of communication of the Collector's acceptance of the bid) and shall without unnecessary delay execute the necessary engagements and take out licenses on the conditions hereinafter set forth. In the case of the purchaser's death after signing the agreement, it will be binding on his heirs and assigns Should the initial deposit exceed the sum required to be deposited under this clause, the excess will be refunded unless the purchaser is required to deposit twice that sum under clause XI *infra*

XI. If an enquiry subsequent to sale the purchaser shall be found to be of doubtful solvency, he may be required either to deposit twice the sum prescribed in clause X *supra*, or to get a surety or sureties to execute a security bond for the due payment of all moneys that may become due by him under the terms of the contract The bond shall be stamped (article 34, schedule I, Act II of 1899) and registered at the expense of the purchaser of the amount secured exceeds Rs. 1,000

XII. On the failure of any person to make deposit under clause X or to comply with the requisition under clause XI *supra* or to execute engagements and take out licenses as aforesaid the deposits already made may be forfeited and the shop re-sold under the orders of the Divisional Officer on the dates notified by the Collector or otherwise disposed of by the latter officer

XIII Re-sales effected under clause XII will be at the risk of the defaulting bidder, who will forfeit all gain, and, in the event of a loss, will be required to make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case the forfeited deposits will be deducted from the loss arising from the re sale, and the remainder, if any, will be recoverable from the defaulter in the same manner as if it were an arrear of Land Revenue. Should, however, the forfeited deposits be greater than the loss by re-sale, the whole of such deposits will be credited to Government. The defaulting bidder will be similarly liable if the privilege is disposed of otherwise than by re-sale and such disposal results in loss to Government as compared with original sale.

XIV. The purchaser of the privilege is liable to the penalties prescribed for breaches of the conditions set forth below, though a formal license may not have been issued to him.

XV The deposit referred to in clause X or clause XI, as the case may be, will be taken as security for the due performance of the conditions of the license. If the Tahsildar † and licensee so agree, it may be credited towards the last instalments of the kists payable by the latter.

Condition of Issue of Licenses for Wholesale Vend of Arrack and Ganja.

XVI Applications for the privilege of the wholesale vend of country spirits and of intoxicating drugs prepared from the hemp plant should reach the Collectors concerned on or before the 1st March 1911 and each should be accompanied by a fee of Rs 10 which will be returned to those persons whose applications for licenses are not approved. The grant of licenses confers no exclusive privilege, and it will be open to the Collector to grant licenses under like conditions to other persons at any time during the currency of the licenses for which applications are now invited. Licenses for the wholesale vend of arrack will be granted to private persons only if they have obtained the consent of the arrack supply contractor of the district to the opening of their depots If such depots are not worked to the satisfaction of the Collector, they may be closed at any time

The licenses issued under the above clauses will contain the following general conditions common to all abkári and opium licenses and the special conditions prescribed below for each particular kind

General Conditions applicable to all Abkári and Opium Licenses.

1. Contract suppliers of country spirits are prohibited from holding within their contract areas any interest in the retail vend of arrack or in the vend of other intoxicating liquors such as toddy, foreign liquor and beer, and from employing any person who has such interest. This prohibition does not

* Deposits may be in cash or other approved security. † Includes Deputy Tahsildar in independent charge

extend to the wholesale supply of foreign liquor or of rectified spirit to licensed vendors; nor does it prevent them from holding an interest in the retail sale of country spirits in areas other than those for which they have been granted the supply contract, or from holding ganja and opium shops either within or without their contract areas.

2. The limits within which sales under any abkári or opium license may be carried on will be specified by the Collector at the time of the grant of the license. The sale or possession (except subject to the rules applicable to unlicensed persons) of liquor, opium or intoxicating drugs outside those limits is prohibited.

3. Sales must be conducted in a suitable building of which the whole or part must be entirely set aside for use as a depot or shop. If there are means of communication between the depot or shop and an adjoining dwelling-house, they must be kept locked at night. In the case of arrack shops and taverns in Municipalities, or towns having a population of 20,000 and over, the shop premises shall have no doors except into the main street; there shall be no possible means of ingress or egress in any other direction: the interior of the shop shall be sufficiently lighted by day and the shop shall not be used as a place of residence save by the vendor and his family or caretakers.

4. Except in the case when two or more foreign liquor licenses are held by one person, sales under each licenses issued must be in different premises (chemists and druggists and medical practitioners excepted). The possession upon any licensed premises of any liquor, opium or intoxicating drug except that to which the license relates, or of any essence or substance used or capable of being used for colouring or flavouring liquor is prohibited. But intoxicating drugs made from opium or the poppy other than morphia or codeine or preparations for smoking may be prepared and sold in shops licensed for the sale of opium. In shops which are clearly of a superior character private bars may be sparingly allowed by the Collector, under a special license to be granted by him free of fee, provided that the interior of the bar is wholly visible from the doorway and that the entrance to it is either through the main door of the shop or through a separate door clearly labelled, or provided with a proper sign-board to show its nature.

5. A sign-board must be affixed to the front of each depot or shop showing the nature and number of the license under which sales are conducted there, the name of the licensee and (except in the case of foreign liquor) the current rate of sale. These particulars must be legibly painted in the local vernacular and, in the case of taverns and wholesale depots, in English also. The license must be hung up in a conspicuous place within.

6. All liquor, opium and intoxicating drugs sold or kept for sale shall be of good quality and unadulterated. Nothing shall be added to opium and intoxicating drugs either to increase their intoxicating power or for any other purpose except the manufacture of intoxicating drugs in accordance with the terms of a license. Nothing shall be added to liquor except in compounding in accordance with the terms of a license. Nor shall different kinds of liquors be mixed and sold under the designation of one of them. All officers authorised to inspect depots and shops (*vide* condition 25 *infra*) are authorised to detain any liquor, opium or intoxicating drugs found unfit for consumption or use, or which they may believe to have been tampered with in any way, and all Collectors and Deputy and Assistant Commissioners of the Salt, Abkári and Customs Department are empowered to confiscate or destroy any liquor, opium, or intoxicating drugs unfit for consumption or use or which have been tampered with, and all liquor to which liquor of another description has been added and which is being offered for sale under the name of one of the liquors so mixed.

7. The sale or transport of liquor, opium or intoxicating drugs by persons below the age of 14 or by persons suffering from leprosy or any contagious disease and the employment of such persons in shops or depots for the sale of the same are prohibited. The Divisional Officer may, where necessary, call for the names of all persons employed or proposed to be employed in depots or shops and forbid the sale of liquor, opium or intoxicating drugs by any person of whom he may disapprove.

8. No depot or shop shall be opened before sunrise or kept open after 9 P.M. except under special authority. In Madras sales after 9 P.M. will be allowed only in special cases under separate licenses and on payment of such fees as may be prescribed by the Collector.

9. No drunkenness, disorder or gaming shall be permitted in depots or shops. Entertainments of any kind in depots or shops are also strictly forbidden.

10. No robbers or thieves or disorderly or riotous persons shall be harboured in depots and shops. Intimation of their resort thereto shall be given to the nearest Magistrate or Police officer.

11. No person shall be harboured in any depot or shop during the night.

12. Depots and shops situated on or adjacent to the line of march must be closed, if the Collector so orders, while a regiment or detachment of European or native soldiers is passing or is encamped in the vicinity. Collectors or Divisional Officers shall have power also to close any shops temporarily in times of religious excitement or disturbance. Every depot and shopkeeper shall on his own motion close his depot or shop when there is riot or disturbance in the neighbourhood.

13. The Collectors may order the transfer of depots and shops from one locality to another or their closure or the opening of new depots and shops within limits as to number to be fixed by the Board of Revenue in their discretion. But no new shops should be opened unless notice of the sites selected has been published in the District Gazette six months before the commencement of the lease and no such changes as affect the interests of adjacent shopkeepers shall be made during the currency of a lease except under special sanction of the Board. Tahsildars may at any time permit the transfer of a shop within the limits notified for the shop in the sale notice.

14. The right is reserved to the Collector to grant "Occasional Licenses" for the sale of liquor, opium and intoxicating drugs, on the occurrence of fairs, festivals, etc., only in places in the vicinity of which there are no regularly licensed shops. This power in regard to country spirits and toddy may also be exercised by Divisional Officers. Such licenses should be issued only when absolutely necessary and shall ordinarily be granted to the shopkeepers who usually supply the locality or to the representatives of the renter. The licenses shall run only so long as they are actually required not exceeding ten days. Not more than one license shall be issued for a fair or festival without the sanction of the Board. The fees to be paid for the licenses shall be fixed at the discretion of the officers issuing them.

15. No liquor, opium or intoxicating drug shall be sold or given—

(a) Except at shops specially approved by the General Officer Commanding the Division (or Independent Brigade) or the Officer Commanding the Cantonment or Camp, and then only in respect

to such liquors as shall be approved by the same authority in consultation with the local Excise authorities and specified in the license—

(1) to sailors of the Royal Navy, soldiers and the members of their families, or

(2) to any other person living in barracks;

(b) (1) to persons whom a vendor knows, or has reason to believe, to be camp followers, *i.e.*, all class of followers (other than private servants) whether on or off duty, who have a right to be in cantonments; or

(2) to Policemen, Excise officers and Railway servants when on duty; or,

(c) in any circumstances, to any—

(1) European vagrant under escort of the Police;

(2) child under fourteen years of age;

(3) insane person; or

(4) person known or believed to be intoxicated.

Note.—The restrictions in (a) and (b) do not apply to Native soldiers, their families and followers when they are absent on leave from their regiments.

16. No privilege of supply or vend shall be sold, transferred or sub-rented without the Collector's previous permission. Nor, if the Collector so orders, shall any agent be appointed for the management of any such privilege without his previous approval.

17. No holder of any abkári or opium license will be allowed, without special permission from the Collector, to possess any interest in any abkári or opium license in any Native State or foreign territory or in any British territory where a low rate of duty is in force and which is adjacent to the district in which he holds his license.

18. Depots and shops must be kept open unless their temporary or permanent closure is authorised under condition 12 or 13 *supra* and such supply of liquor, opium or intoxicating drugs as the Collector may consider sufficient to meet local requirements must be maintained therein. Shops not opened by dates to be fixed by the Collector shall be liable to be resold at the risk of the licensees.

19. No liquor, opium or intoxicating drug shall be sold in shops except for cash. The licensee shall be bound to give intimation of the offer of anything other than cash to the nearest Magistrate or Police officer. This condition is not, however, meant to restrict credit sales in the ordinary course of business by shopkeepers or firms of standing and respectability dealing in foreign liquor for consumption off the premises.

20. No liquor, opium or intoxicating drug shall be sold either below or above such minimum * or maximum † prices as may be fixed for sale of the same in accordance with the law for the time being in force.

21. No liquor, opium or intoxicating drug in excess of the quantity prescribed ‡ for possession without a license shall be permitted to be removed by any person at any one time from any licensed premises without a valid permit; nor shall liquor or intoxicating drug be sold at wholesale depots in quantities less than the minima prescribed.

22. True accounts of transactions shall be maintained from day to day in ink in the prescribed form §. The accounts and permits shall be in printed books. The account books may be obtained from local Revenue officers on payment of cost price. The permit books can be obtained at all Circle offices on production of receipts for the payment of the cost price into a Government Treasury. Permits for liquor, opium or intoxicating drugs received and the counterfoils of permits issued must be carefully filed. The signing of blank permits for subsequent issue is prohibited. The accounts and counterfoils of permits shall be preserved for one year after the period covered by the license and shall be produced when called for by an officer not below the rank of Assistant Inspector of the Salt, Abkári and Customs Department.

23. Such returns and information as may be required by the Divisional Officer from time to time shall be furnished by holders of licenses.

24. Only such weights and measures as may from time to time be prescribed by the Commissioner of Salt, Abkári and Separate Revenue shall be possessed or used on any licensed premises, and they shall be tested and stamped by the stamping establishment of the district if the Collector shall so direct. The possession or use of weights or measures that are incorrect on any licensed premises will render the licensee liable to punishment.

25. The officers authorised to inspect licensed shops and depots are—

(1) any officer of the Revenue Department of rank not lower than Revenue Inspector, and

(2) any officer of the Salt, Abkári and Customs Department of rank not lower than Sub-Inspector.

† For opium shops in the Ganjam, Vizagapatam and Godavari districts, and in the taluks of Narasapur, Bhimavaram, Tanuku, Ellúru and Yernagudem of the Kistna district, an uniform rate of 8 annas a tola has been fixed.

In the Agencies of Ganjam, Vizagapatam and Godavari any quantity up to such limit not exceeding ten tolas as the Board may from time to time, prescribe, and elsewhere one tola of opium or preparations therefrom other than morphia or codeina or preparations for smoking.

§ The only toddy shops to which this condition applies at present are those in the Madras Town Circle.

These officers are empowered to enter and examine the premises, to test weights and measures in use and the liquor, opium and intoxicating drugs in the possession of the licensees, and to call for and check the accounts kept at the shop or depot. Police officers will also make inspections when it comes within the scope of their duty.

26. An inspection note-book, with the pages numbered consecutively, for inspecting officers to enter their remarks in, shall be maintained, and be handed over to the Inspector of the Circle or any officer authorized by him to receive it on a receipt being given therefor.

27. The amount for which the privilege has been purchased shall be payable in twelve equal monthly instalments into a Government Treasury on or before the 10th * of each month beginning with April or October as the case may be. Fees for depots should be prepaid.

28. No remission or abatement of the rent shall be claimable on any account whatever.

29. Any sum due by a licensee may be collected * under the Revenue Recovery Act or adjusted from the deposit, if any, made by him at the commencement of the lease. He shall be bound to replace any sums adjusted from his deposit within fifteen days of receipt of notice from the Tahsildar. †

30. Power is further reserved to Revenue officers to suspend * licenses in case of failure of payment of kists or (in the case of toddy) tree-tax also on the due dates. In the case of arrack, toddy, ganja and beer shops and taverns, this power will be exercised by Tahsildars, † in the case of opium shops by Divisional Officers and in other cases by the Collectors.

31. In the event of suspension of a license for failure to pay arrears, the privilege of sale will be re-sold with effect from the date of issue of license to the new purchaser or otherwise disposed of at the Collector's discretion. All losses on account of suspension and re-sale or other disposal of the privilege shall be borne by the defaulting licensee, but he shall have no right to gain, if any, which accrues. The whole of the deposit, if any, made at the commencement of the lease will be liable to forfeiture. The officer who has power to suspend the license may, however, at his discretion, allow sales to continue pending re-sale or other disposal of the privilege.

32. Interest on all moneys due shall be payable at the rate of 6 per cent. per annum.

33. Infraction of any of the conditions of the license either by a licensee or by any person in his employment will entail on the licensee—

Either (*a*) fine up to Rs. 50,

or (*b*) forfeiture of deposits, if any, and cancellation of license and re-sale or other disposal of the privilege at the risk of the licensee.

The licensee or his agent may also be prosecuted for the specific offence committed.

The rent for the whole lease shall become due at once, when a lease is cancelled under these conditions.

Note.—For continuing breaches of a license, continuing fines may be imposed.

34. Any license may be forfeited and the privilege be re-sold or otherwise disposed of at the risk of the licensee if the licensee be convicted before a Magistrate of any offence against the $\frac{\text{Abkari}}{\text{Opium}}$ Act, or of any offence under the Indian Penal Code, which in the Collector's opinion renders him unfit to hold it. The purchaser of a privilege is liable to the penalties prescribed in this condition if he is convicted of any such offence as above contemplated after the confirmation of the sale of the privilege to him though before issue of a formal license. Forfeiture of any license under this clause shall involve forfeiture of the balance of all deposits after payment to Government of all sums due under the lease.

35. Licensees are bound to report to the Divisional Officer all instances which come to their knowledge of persons employed by them in the manufacture, carriage or sale of liquor, opium and intoxicating drugs, committing breaches of the $\frac{\text{Abkari}}{\text{Opium}}$ laws or of engagements entered into by them and to comply with the Divisional Officer's orders respecting the continued employment of such persons. No persons who have been convicted under the Indian Penal Code shall be employed in the carriage or sale of liquor, opium and intoxicating drugs without the Collector's previous permission.

36. Pecuniary dealings by licensees of any kind whatever with officials of the Salt, Abkári and Customs Department are absolutely prohibited.

37. With the sanction of the Board of Revenue, any license shall be revocable by the Collector at his discretion on giving the licensee fifteen days' notice of such revocation, in which case a proportionate part of the fee paid will be refunded.

38. All licensees shall be bound by any additional general rules that may be prescribed under the $\frac{\text{Abkari}}{\text{Opium}}$ laws and, if so required by the Collector or any officer authorized by him, to deliver up their licenses for amendment or for the issue of fresh ones.

Conditions applicable to Arrack Licenses.

1. The privilege extends only to the sale of country spirits of the prescribed strengths. These are 30° under-proof and 60° under-proof, except in the tracts in the South Arcot district bordering on French territory where the liquor to be sold will be 40° under-proof.

2. Spirits shall be purchased only from a distillery or warehouse established by the contract supplier for the supply of the district or from a wholesale depot established by the contract supplier, or by a private person with the contract supplier's consent. The prices to be charged per gallon at the distilleries, warehouses and wholesale depots in the several districts are given below.

* Shops are liable to be re-sold for failure to pay kists only after the 20th. In the meantime, interest will be levied. In the Madras Town, however, separate orders are in force.

STATEMENT OF OBJECTS AND REASONS.

It having been deemed expedient by the Madras Equitable Assurance Society that steps should be taken to amend the Society's Act in various important particulars, an amending Bill has been prepared by the Directors, and the following memorandum will explain the steps which have been taken and the reasons therefor in this connection.

Memorandum.

2. Extract from the proceedings of the second special general meeting of members of the Society held at the office of the Secretaries and Treasurers, Messrs. Ramsay & Co., Madras, on Tuesday, the 29th March 1910.—

"Resolved that the Society be carried on as a "sealed series" until the next quinquennial "valuation of the Society's finances is known, and that the Directors should take steps to approach "the legislature to amend the Society's Act so as to admit of such amalgamation and to provide "for other matters which may tend to reduce the current working expenses and to increase the "Society's income from investments, besides affording temporary relief to such members as "may require it by way of advances at 5 per cent interest up to the amount of the surrender "value of the policy."

3. The following facts are submitted to explain why the general body of policy-holders found it necessary to adopt the above resolution, and why it is expedient to amend the Society's Act.

4. The future of the Society had engaged the serious attention of its members for several years past, since Messrs. Arbuthnot & Co.'s factors in October 1906. The first proposal to amend the Act was made at a meeting of the members held on the 7th November 1906, when it was resolved that the Society's solicitors be asked to take the opinion of Mr. (now Sir) Basil Scott who was then Advocate-General and is now the Chief Justice of Bombay, as to what steps were necessary to give effect to the resolution. The Society's solicitors then submitted to the Directors for their approval the case to be laid before the Advocate-General from which the following extracts are taken setting forth the reasons why the members considered it necessary to take steps to amend the Act:—

"1. Owing to the restricted scope of investments allowed to the Society by section 4 of "the Act and owing also to the Society not being allowed to issue any endowment policies, the "Society has no doubt been considerably hampered in its operations and it has been suggested "more than once that steps should be taken to have the provisions of the Act modified if possible.

"2. Now that Messrs. Arbuthnot & Co have ceased to carry on business and the "material support they were able to afford the Society in the way of inducing their constituents "to become policy-holders will no longer continue, the Board of Directors consider that it is "essential for the prosperity of the company that the Act be altered, if possible, to the following "directions:—

"(*a*) That the Society's powers regarding investments be added to and that the Society "should be at liberty to invest its funds in all securities allowed to trustees under "the Indian Trustees Act.

"(*b*) That the Society may make advances to a policy-holder not exceeding the surrender "value of his policy for loans for short periods at the Bank of Madras rate of "discount with a minimum rate of 5 per cent. such interest to be paid in advance "and the policies to be assigned to the Directors on a special form supplied for "this purpose and all expenses to be borne by the policy-holder. The loan to be a "first charge on the policy.

"(*c*) That the Society shall have power should it think fit so to do to amalgamate its "business with that of some other assurance company.

"3. Counsel will please advise the Society as to whether it is possible to amend the Act "so as to alter the constitution of the Society in the above respects or any of them and, if so, what "steps are necessary to be taken for the purpose"

5. The Advocate-General, in giving his opinion, stated that the constitution of the Society could be altered by means of an amending Act.

6. This was duly communicated to the Society's actuary who was asked in January 1907 to report as to the feasibility of amalgamating this Society with some first-class British Life Insurance office. In October 1907 he suggested the following courses which were duly communicated to the members by printed circulars on the 12th December 1907:—

A.—Continuance of the Society.

(*a*) Carrying on the Society as heretofore; making no special effort for securing new entrants; accepting such fresh lives as may come forward, with a general or restricted right to share in the profits.

(*b*) Carrying on the Society, with special efforts to attract new entrants, by means of a machinery following the lines adopted by competing assurance companies with, or without, any restricted profit rights.

(*c*) Carrying on the Society as a sealed series; that is to say, admitting no new entrants and working out the contracts to the last survivor.

B.—Dissolution of the Society.

(*d*) By voluntary winding up and a distribution of the assets amongst the policy-holders and other creditors, according to some scheme that may be approved by them and allowed by law.

(*e*) By transfer of the current risks, connection and goodwill of the Society to some approved assurance company, upon terms and general conditions that will protect the interests of the policy-holder.

7. A special general meeting was held on the 11th August 1908 to ascertain which of the above courses the members would decide to follow and on a poll being taken it was found that a majority of 119 members were in favour of course (*c*) provided that the terms and general conditions offered by the approved British Life Assurance Company were such as would be acceptable to the general body of policy-holders. Negotiations were then entered into with several Life offices in London but had to be broken off as it was found impossible to obtain the unanimous consent of the members to any of the terms offered, which many considered would not improve the position of the Society.

8. Various conflicting opinions were expressed by members in discussing the future of the Society, till at length some of them resolved to take legal action for the purpose of obtaining an order for winding up the Society, and accordingly presented a petition on the 6th January 1909, to the Madras High Court setting forth the following reasons for such a course :—

"It was pointed out that the business had come to a standstill and was only being carried "on as a 'sealed series,' admitting no fresh entrants, and that the Society had ceased to carry "on business within the purview of section 243 of the Indian Companies Act, or was only "carrying on business for the purpose of winding up its affairs until the last of the policies on "its register should have been paid off. It was further submitted that the Society was unable "to pay its debts, meaning thereby the prospective or contingent liabilities which the Society "was under for policies and existing contracts, and that it was just and equitable under the "circumstances disclosed in the petition that the Society should be wound up. The petitioners "therefore prayed that an order be made for the winding up, that a scheme be settled for the "distribution of the funds after meeting its debts, that proper liquidators be appointed and for "other incidental reliefs."

His Lordship Mr. Justice Wallis fixed the petition for hearing on the 16th March 1909, directing in the meantime that the action taken by the petitioners be made known to all the policy-holders by advertisement in the *Fort St. George Gazette*, the London *Times* and various papers in India; also that notices be served by registered post to policy-holders residing out of India.

9. The case was duly heard by Mr. Justice Wallis on the date fixed, resulting in the dismissal of the petition. Copy of his judgment is attached hereto—*vide* Appendix.

10. The Directors circulated copies of the judgment to all the policy-holders, whereupon a large body of some of the most influential members in London formed themselves into a committee, electing as their president Sir H. H. Shephard, a retired Judge of the High Court of Madras. Their meetings were of an informal nature, and were convened for the purpose of re-opening the question of amalgamation, and of submitting for the approval of the Directors other proposals, the carrying out of which they considered would materially benefit the Society.

11. The proposals were carefully considered by the Directors, but as the views held by the members resident at home were so divergent from, and at variance with, those of members resident in India, the Directors were of opinion that this was not a matter with which they should deal without consulting the whole body of the members, seeing that it materially affected the constitution of the Society. They therefore convened a special general meeting of the members to decide the question. This meeting was held at the office of the Secretaries and Treasurers, Madras, on the 7th July 1909, and was adjourned to the same date as the annual general meeting, viz., the 29th March 1910. At the adjourned meeting the members were again asked to vote for any one of the following three courses laid before them :—

(*a*) Carrying on the Society as heretofore; making no special efforts for securing new entrants; accepting such fresh lives as may come forward, with a general or restricted right to share in the profits.

(*b*) Carrying on the Society, with special efforts to attract new entrants, by means of a machinery following the lines adopted by competing assurance companies, with or without any restricted profit rights.

(*c*) Carrying on the Society as a "sealed series"; that is to say, admitting no new entrants and working out the contracts to the last survivor.

After some discussion and after reading the letter from the London Committee, dated 4th March 1910, addressed to the Directors, Mr. F. M. Robinson proposed that course (*c*), viz., carrying on the Society as a "sealed series," that is to say, admitting no new entrants and working out the contracts to the last survivor, be adopted.

Mr. W. Donald Smith having seconded the proposition, the motion was put to the vote and carried unanimously.

12. A second special general meeting was held immediately after the adjourned meeting, when the resolution as printed at the head of this paper was carried. This resolution not only provided for carrying on the Society as a "sealed corpus" temporarily but also for taking steps to amend the Society's Act and to provide for other matters as set forth therein. It is in pursuance of this resolution that the accompanying Bill has been drafted, which will be laid before the Madras Legislative Council.

13. We will now proceed to deal with the proposed amending Act and explain the reasons for each of the amendments, which may be classified under three heads:—

(*a*) Definition or interpretation of terms.

(*b*) Interpolations or insertion of words in several sections of the Society's regulating Act.

(*c*) Insertion of new sections.

14. (*a*) *Definition or interpretation of terms.*—These are seven in number and are introduced as they are not in the Society's regulating Act (Act VI of 1869), and because they correspond more or less with those to be found in the recent Life Assurance Act passed in England which came into force on the 1st July 1910, and is cited as the Insurance Act of 1909, some of the provisions of which have been incorporated in the present amendment Act, more particularly the provisions regarding amalgamation and sending notices to policy-holders, *vide* sections 13 and 14 and section 26 of the Insurance Companies Act of 1909.

15. (*b*) *Interpolations or insertion of words in several sections of the old Act above referred to.*—The clauses dealing with these are marked Nos. 2, 3, 4, 5, 7 and 8 in the Bill. The first four deal with section 4 of the regulating Act and the reasons for inserting them are as follows:

Clause 2.—The words interpolated are "*shall be the property of the members of the Society and*"

These words are inserted to make it clear that the General Fund is the property of the members of the Society, as this is not specified in Act No. VI of 1869.

16. *Clause* 3.—The words interpolated are: "*to making advances to members of the Society or their assigns upon the securities of their policies*"

Clause 4.—The words interpolated are: "*save as provided in section* 4A"

These interpolations have been introduced to meet the wishes of a large number of members who are desirous of obtaining loans direct from the Society at moderate rates of interest. It is probable that if during the next quinquennium the rates of premium are increased, many members, such as pensioners and persons in straitened circumstances, would prefer to borrow from the Society on the security of their policies rather than surrender them.

17. *Clause* 5.—The words interpolated are "*or in any other securities in which the investment of trust funds is under the law for the time being permissible.*"

The reason for the insertion of this clause is to be found in the case submitted to Sir Basil Scott. The Society has in recent years sustained heavy losses on account of depreciation in Government paper. The value of three per cents, which was estimated at 87½ per cent. two or three years ago, stood at the end of last year at 80 per cent., and it is estimated that under this heading the Society will have to write off a depreciation of about 2 lakhs of rupees on the 31st December 1910, which date terminates the present quinquennium. The Society is therefore desirous of obtaining power under the new Act to invest its funds in other securities, as provided in clause 5 of the amending Act.

18. *Clause* 7.—The words interpolated are "*In all cases where a policy has been assigned to the Society, the Directors shall have the vote appertaining to such policy.*"

This is self-explanatory.

19. *Clause* 8.—The words interpolated are: "*and who shall be policy-holders or their assigns.*"

This clause is inserted to ensure that all Directors shall have a direct interest in the Society.

20. (*c*) *Insertion of new sections.*—These are six in number, viz., 4A, 8A, 8B, 11A, 13 and 14.

"4A. The Directors may in their discretion advance monies from the General Fund to "members of the Society or their assigns as a first charge upon the security of the policies held "by them and duly assigned to the Society up to an amount not exceeding three-fourths of the "surrender value for the time being of such policies. All such advances shall bear interest at "such rate per annum as the Directors may determine which shall be credited to the General "Fund."

The reason for introducing this section has already been explained in the references made to clauses 3 and 4 of this memorandum.

21. 8A reads:

"The Directors shall meet once a month for the transaction of business relating to the "Society."

The object of this section is to ensure the exercise of a proper check and control over the affairs of the Society.

22. "8-B. It shall be lawful for the members in general meeting assembled by a majority of "three-fourths present and voting, personally or by proxy, to reduce the number of Directors from "5 to 3, should the number of members fall below 200."

This section is intended to provide for a reduction of expenses should the state of the Society's funds call for such a course.

23. "11-A. Any notice which is by this Act required to be sent to any member may be "addressed and sent to the last-known address of the person to whom notices respecting such "policy are usually addressed and any notice so addressed and sent shall be deemed and taken to "be notice to the holder of such policy.

"Provided that when any person claiming to be interested in a policy has given to the "Society notice in writing of his interest, any notice which is by this Act required to be sent to "policy-holders shall also be sent to such person at the address specified by him in his notice."

This section is a *verbatim* copy of section 26 of the Insurance Companies Act of 1909.

24. "13. The Society may, with the consent of the members, amalgamate with any first-class "British Life Insurance Company upon such terms as to future payments of fixed premiums, "bonuses, surrender values, and grant of paid-up policies as may be approved at a general "meeting to be specially convened in that behalf, unless members representing one-tenth or "more of the total amount assured dissent from such amalgamation. Upon such amalgamation "taking place the Society shall cease to have a separate existence under this Act."

This section is the most important of all the amendments. At the second general meeting held on the 29th March 1910 an almost unanimous desire was expressed that efforts should be made as early as possible to negotiate with some first-class British Life office with a view to amalgamation. It will be for the legislature to determine whether the majority required to effect amalgamation shall be a majority of three-fourths, as required by the Indian Companies Act, or of nine-tenths, as provided by the Insurance Act of 1870, or whether the matter is to be left to the decision of a court, as provided by the Insurance Act of 1909.

25. "14. All the costs, charges and expenses of and incidental to this amending Act shall "be paid by the Directors out of the funds in their hands; and such payment shall be deemed to "be a part of the necessary expenses of management of the Society."

This section gives the necessary authority to the Directors to pay from the Society's funds all costs, charges and expenses connected with the introduction and passing of this amending Act.

APPENDIX.

Judgment in the action for winding-up of the Society.

In the matter of the petition which Messrs Short and Bowes filed on behalf of three policy-holders for the winding up of the Madras Equitable Assurance Society, His Lordship (Mr. Justice Wallis) delivered the following judgment:—

This is a petition under section 213 of the Indian Companies Act, praying for the winding up of the Madras Equitable Assurance Society, an unregistered association formed for the mutual assurance of lives in the year 1824, and now governed by the provisions of a special Act, Madras Act VI of 1869. Under section 5 of this Act, there is a quinquennial valuation of the assets and liabilities of the Society, and such portion of the profits as the Directors may think fit is applied in reduction of the premium payable during the next quinquennium by the holders of policies in existence at the end of the quinquennium, in respect of which the valuation is made. Owing to the high rates of premium charged by the Society, and other circumstances, the balance of profit so divisible at the end of each quinquennium has been very large—so large as to reduce the premiums payable under the policies by no less than 75 per cent., or to only one-fourth of the premium provided for in the policies. In its prospectuses, the Society has held out the expectation that these favourable results would continue, and there can be no doubt that a system, which appearing to provide for an unusually high rate of premium in the beginning, followed by a very low rate subsequently, is specially calculated to appeal to Europeans holding appointments out here, as they would naturally be willing to pay a higher rate whilst holding their appointment, with a view to paying a lower rate after they had gone home on pension, or otherwise. Unfortunately, the system did not, and could not, guarantee such favourable results; and it merely provides that the profits of one quinquennium shall go in reduction of the premiums for the next, and if these profits fall off in any quinquennium, it is obvious that reduction in the premiums for the next quinquennium must be less, in order to keep the Society in a sound condition. In the present quinquennium there has

been a depreciation in the market value of the Society's General Fund, owing to the fall in Government paper, in which it is invested under its Act, and Messrs Arbuthnot & Co., who acted for many years as the Secretaries and Treasurers to the Society, have failed, and at the date of their failure in October 1906 were indebted to the society in some Rs 80,000. For this and other reasons, the Actuary of the Society estimates that the profits of the present quinquennium will admit of a reduction of only as much as 56¼ per cent in the premiums payable for the next quinquennium, beginning with 1911. The Directors also anticipate that for these and other reasons, which I need not go into, the Society is not likely to get any considerable amount of new business if it should wish to do so, and that if the Society's business is carried on, it will have to be carried on as what is known as a sealed series, which is explained to mean "that no new business will be taken, and the existing contracts will be worked out to the last survivor." In his report of the 11th October 1907, the Society's Actuary recommended amalgamation with a powerful Company as preferable to carrying on the business as a sealed series, and in order that the policy-holders might have all possible courses before them, he also mentioned winding up the Society, but only to put it aside as out of the question. Negotiations for amalgamation took place and have failed, and in these circumstances those petitioners who claim to voice the wishes of the policy-holders for over Rs 10 lakhs, or more than one-fourth of the existing assurances of the Society, have applied to the Court to exercise its jurisdiction under section 243 of the Indian Companies Act, and to wind up this unregistered association, regarding winding up as preferable to carrying on the society's business as a sealed series.

Now, under this section the Court is not empowered, as it is under section 128 in the case of registered companies, to wind up a Company when it has passed a special resolution requiring the Company to be wound up by the Court. In the case of an unregistered Society such as this, the Court under section 243 can only make a winding up order (1) when the Company is dissolved, or has ceased to carry on business, or is carrying on business only for the purpose of winding up its affairs; (2) when the Company is unable to pay its debts; and (3) when the Court is of opinion that it is just and equitable that the Company should be wound up.

The petitioners' claim that a case for winding up has been made under all these three heads, and the Court has to see if that is so. The first head is only applicable if it can be said that the Society has ceased to carry on its business, except as a sealed series, and carrying it on as a sealed series would be carrying on business only for the purpose of winding up its affairs. Now I am not satisfied that the Society has ceased to carry on business, except as a sealed series. All that appears is that it is not anticipated that new business is likely to be obtained to any great extent, and that under these circumstances it may be more advantageous to the existing policy-holders to carry on as a sealed series and so curtail the expenses of management. The words "carrying on business only for the purposes of winding up," in section 243 of the Indian Companies Act and section 190 of the English Companies Act, 1862, do not occur in section 128 of the Indian and section 79 of the English Act, and I have not been referred to any case in which they have been so construed or succeeded in finding any. In the absence of authority I should certainly hesitate to apply them to a Society which has outstanding assurances for nearly Rs. 40 lakhs which it must take years to work out and a gross premium income of nearly Rs. 2 lakhs, merely because the Society ceased to take in new business. And even if the Society could be held to be carrying on business only for the purpose of winding up, it would not, in my opinion, be right for the Court to exercise jurisdiction to order a winding up on this ground only where the effect would be to prevent the Society from carrying out the contracts it has entered into and oblige policy-holders to accept something which they have not stipulated for.

The next point suggested is that the Society is unable to pay its debts, including in that term its prospective liabilities on policies, according to the provision in section 130 of the Indian Act. This ground, in my opinion, should not have been put forward, as there is absolutely nothing in the petition to support it. According to the certificate of its Actuary, one of the best-known Actuaries in London, the business of the Society for the quinquennium ending 31st December 1905, showed that its assets exceeded its liabilities by more than Rs. 9 lakhs, out of which surplus the Directors, in accordance with section 5 of the Act, made an appropriation reducing the premiums payable for the current quinquennium by 75 per cent. It may or may not be that the profit earned in future quinquenniums will not account for so large a reduction as 75 per cent. As to this, I am not called upon to hazard an opinion, and I will only remark that in putting forward the case for amalgamation as against carrying on as a sealed series, the Directors and others were naturally concerned to put before the policy-holders every possible risk to which they would be exposed in carrying on as a sealed series. At the very worst it only comes to decreasing rates of profit and smaller reductions and there is no reason to anticipate that the worst will happen. But as to the alleged inability of the Society to pay its debts which is the question before me, all that the petitioners can bring themselves to state is to be found in paragraph 29 of their petition, where they say that there is no certainty that there will be funds enough to meet the policies of those who live long when they fall due. There is absolutely nothing in the evidence before me as to the present state and prospects of the Society to justify doubts as to its capacities to meet all its liabilities on its policies as they fall due to the utmost farthing. The only doubt is as to how far profits might shrink in future quinquenniums and give rise to smaller reductions than have hitherto been made. Even if the Society carries on as a sealed series it appears to me that it has ample resources out of which to provide for meeting all its policies as they fall due and providing for the expenses of management until the last policy is paid. In my opinion the petitioners have entirely failed to show that the Society is unable to pay its dues.

The petitioners then fall back on the third statutory ground and contend that it is just and equitable that the Society should be wound up. This contention is based upon the ground that if the business is carried on as a sealed series, the policy-holders will not get a reduction of 75 per cent. on the amount of their premiums, which they counted on when they effected them, but only 50 per cent. or something even less. As I have already said, I am not in a position to foresee what reductions will be made at the end of each quinquennium in future. They will, of course, vary according to the turn of events, and may be, as I venture to hope, nearly as large as at present, or only 50 per cent. or even less, but whatever they are, they will be what the policy-holders stipulated for when they effected their policies, viz., so much of the balance of profit of the previous quinquenniums as the Directors may deem expedient to apply in reduction of the premiums for the current quinquennium. Whatever the rate of reduction may be, the policy-holders will get what they contracted for, though, possibly, not what they expected to get. Every policy-holder who entered into one of these policies must have known that the rates of reduction would depend upon the profits earned and have taken the risk of smaller reduction being necessary. He must have known that his only right against the Society is to be paid the amount of his policy when it falls due if he has paid his premiums at the agreed rate, less any reduction under section 5 of the Act. The only other right he has is to surrender his policy and accept the surrender value according to the Society's scale. What the petitioners and those who think with them say they want to obtain by means of a winding up order is something which they did not stipulate for—return of their back premiums out of the general fund and a rateable distribution of any surplus according to the aggregates of their past premiums. What they would be legally entitled to in winding up, would be a share of the assets after payment of the costs of winding up, proportionate to the value of their respective policies at the date of the winding up order. The right method of valuing policies in winding up has been the subject of controversy in England, Lord Cairn and Lord Westbury taking one view and Lord Justice James and Lord Romilly the other, *in re* the English Assurance Company, 14 Equity, p. 12, and in England the question has been settled according to Lord Cairn's view by the Life Assurance Act, 1872. But assuming that the petitioners, and even a majority of the policy-holders, would desire to take their chance in a winding up and get such share of assets as would fall to them after the costs of winding up had been met, would it be just and equitable to force other policy-holders who might be unwilling into winding up when the society is in a perfectly solvent position, and to deprive them of what they stipulated for, in order to give other policy-holders what they did not stipulate for? In my opinion it would not. So long as a Society like this, formed for the mutual assurance of lives, is solvent, and is in a position to do all that it has undertaken to do, I do not think it would be just or equitable, even if it were the wishes of the majority of the shareholders, which it is not shown here, to wind it up against the wishes of the minority. It is not suggested that the policy-holders are anything like unanimous in wishing the Society to be wound up. On the contrary, the petition is strongly opposed. While winding up might be to the advantage of some policy-holders, there must be others, such as those whose lives have ceased to be insurable, in whose case it would have the effect of destroying the provision they had made for their families after them. Then, there is the last spoken to in Mr. Lynn's affidavit, that about one-half in value of the policies issued by the Society are held by transferees from the original holders, either against advances or otherwise. As in such cases the transferees generally have to keep up the premiums, the actual holders are not immediately concerned with the rate of premium payable, and the fact that the rate of reduction may be less than was expected is no reason for depriving them of their security or impairing it in any way. On the whole, I have arrived at the conclusion that it would be unjust and inequitable to make a winding up order. In these circumstances there would be no use in consulting the share-holders and the petition must be dismissed with costs.

Bill introduced into the Council of the Governor of Fort St. George for making Laws and Regulations.

The following Report of the Select Committee on the Bill further to amend the Madras City Municipal Act, 1904, together with the Bill as amended by the Committee, is published for general information:

To

THE HONOURABLE THE COUNCIL OF THE GOVERNOR OF FORT ST. GEORGE FOR MAKING LAWS AND REGULATIONS.

We, the Members of the Select Committee appointed at the meeting of Council held on the 29th November 1910 to report on the Bill further to amend the Madras City Municipal Act, 1904, have the honour to submit our report thereon to the Council.

2. We have considered the Bill and the representations received with regard to its provisions from the Honorary Secretary of the South Indian Motor Union, the Joint Manager of the Madras Electric Tramways, Limited, the Hon'ble Mr. M. A. Kuddus Badsha Sahib, the President of the Muslim public meeting, Madras, and the President of the Corporation of Madras.

3. Apart from verbal modifications we have introduced no change in the Bill except the insertion between clauses 3 and 4 of an additional clause amending section 231 of the principal Act in the manner suggested by the President of the Corporation so as expressly to empower that officer to farm out the collection of slaughter-house rents and fees. This amendment follows clause 4 of the original Bill which authorizes the farming out of the fees chargeable for licenses to slaughter animals. It should be explained that apart from such fees the Corporation officials levy a separate charge for the use of the municipal slaughter-houses.

4. The Hon'ble Mr. Orr, who sat with us, has been unable to sign this report as he has left Madras and will not, we understand, return for some weeks.

MINUTE OF DISSENT.

I regret I cannot see my way to accept the proposed amendment embodied in clause 6 (formerly 5) on my own responsibility. It gives the President the option of closing an existing burial-ground, without first providing another, an arrangement to which the Muslim community is thoroughly averse.
